

How to hide the indication of the current folder in a terminal

(Ubuntu 18.04)

Step 1: copy the file ~/.bashrc

`cp ~/.bashrc .`

Step 2: open the file ~/.bashrc with gedit

`gedit ~/.bashrc`

Step 3: Search for @host in the opened file

`Ctrl + F` then type `@host`

Step 4: delete all \w in the 3 lines PS1= and save

Step 5: Load bash to see results

`bash`
