How to hide the indication of the current folder in a terminal

(Ubuntu 18.04)

Step 1: copy the file ~/.bashrc

cp ~/.bashrc copyBash

Step 2: open the file ~/.bashrc with gedit

gedit ~/.bashrc

Step 3: Search for @host in the opened file

Ctrl + F then type @host

Step 4: delete all \w in the 3 lines PS1= and save

Step 5: Load bash to see results

bash
